Club Cruise and Event Rules

Like all Clubs, all official Events and Cruises have a few simple rules that are in place for your safety and the safety of the other members/general public. Whilst some of these sound harsh these are needed to ensure a happy and safe community.

We ask that these are followed whenever you are representing Rust N Chrome Cruisers Inc. Failure to do so may result in a Ban, Dismissal and cancelation of membership and in some cases matters may be reported to the Police.

Generally, on a highway cruise the lead vehicle will sit between 5 to 10 km/h under the speed limit. This will allow the group to stay together and the cruise photographer to take photos without speeding. We ask that if you involved in the cruise that where possible you maintain a constant speed that is consistent of the car in front. This prevents other carts from breaking up the group.

1) Please ensure that if you express interest in an event that you post in the event in question and advise how many passengers you will have. This assists with catering for some events.

2) If for any reason you are unable to attend an event please advise the organiser or an admin member so as we are not waiting for you to not turn up.

3) On Cruises you are required to ensure that you follow the road rules, this includes but is not limited to, Speed, Burnouts etc. (Instances of Burnouts and Dangerous Driving on an official cruise WILL be reported to the Police and your membership cancelled).

4) Please remain behind the lead car unless your passenger is taking Photographs.

5) No tailgating, the last thing we want is for an accident to occur damaging other peoples pride and joy.

5) Please remain in front of the trail car unless you need to stop. (Then if practical if you have their phone number or both vehicles have a UHF advise them so as they may either assist or organise to meet up at the destination). This rules allows us to make sure we don't lose anyone on cruises and that we all make it there safe.

6) In the event that Police stop a vehicle in the convey please ensure you keep moving, the trail car will ensure that the vehicle stopped is communicated with at a later stage to ensure their arrival and in the event that the entire group has been stopped please allow the Administration team/cruise organiser to speak with the Police first.

7) Under no circumstances are illegal Drugs to be bought to an event nor are you attend an event under the influence of drugs. Doing so will result in an immediate life ban from the club. (No discussion will be entered into on this matter).

8) No Alcohol is too bought to an event nor are you permitted to attend an event under the influence of alcohol at any event. (Unless otherwise stated in the event thread. These will usually only occur at camp trips and home functions).

9) Please ensure you know the destination point in case you are separated from the convoy and that you have a contact number for either the organiser or admin member on the cruise.

10) Have fun and enjoy.

Please note that most cruises and events, some members and admin may have still and/or video cameras mounted to their vehicles and that by attending an event with Rust N Chrome Cruisers Inc that you permit these photos or footage to become the property of Rust N Chrome Cruisers Inc and may be used in advertising or in the case of a driving behaviour issue forward to the Police.
